

Group 5

RETAIL PRICING

- Chicago
- Springfield
- Calumet
- Aurora (add 50%)

Use this chart to price any shade in this style group in any of our non-difficult fabrics (see pg. 5). Simply determine the fabric's price category (A, B, C or D*), find your size and drop down the column to find the price for the appropriate fabric category and optional linings (linings are priced per lining). At the bottom of the column you will find popular options and net freight charges. Pricing includes our regular poly/cotton lining. Optional linings include heavy sateen, interlining, thermal or room darkening. All stock fabrics on pg. 5 with (*) are difficult fabrics in this style.

Note: See bottom of COM chart on next page. Price charts are based on number of widths of goods used. At shade widths nearing 24", 48", 72" and 96", all styles may have substantially less fullness. If more fullness is desired, request extra fullness and shade will be priced at the next width size.

•Top Treatments: Add 12" to the valance length and add returns on the width.

•See pg 29 for more details on: Railroaded fabrics; Difficult fabrics; Pleat Matching and 2 on 1 headboard.

* Price D fabrics as C + 25%.

RollEase Controls:

Std - #10 color coordinated plastic beaded chain or nickel metal chain (plastic is quieter & Superior selects color). Optional - stainless steel or custom color beaded metal chain (colors have less flexibility in chain links), \$30 per shade (Call for colors).

(See pgs. 6 & 29 for important warranty info on RollEase)
