Stainless Steel Chain	26 / Shade
Spring Assisted Clutch Shade	172 / Shade
Exterior Shade Guide Wire System	258 / Shade
Bottom-Up Shade with Cord Lock	236 / Shade

External Round Hembar no charge

### Important Items To Note:

- Screen fabrics will be fabricated vertically or horizontally (railroaded) at the factory's discretion. Any shades wider and longer than the fabric's width will have one or more visible seams (splices).
- The maximum warrantied size of a clutch operated shade is 126" x 144".
- The maximum size of a spring operated shade is 96" x 96".
- Clutch shades over 114" in width require a spring assisted lifting mechanism.
- Larger shades may require motorization to facilitate ease of operation.
- Prices for side channels include both left and right channels and seal brushes.
- Prices for valances, boxes, and pockets include all brackets and end caps.
- Reverse roll option is not available for square, curved, or wrapped fabric valances.
- The size of a shade will determine the size of the tube used; upgrades to larger tubes will be available upon request. Please review the clutch and spring fabrication chart at the end of this section.
- Multi-band shades are priced as 1 overall shade; surcharges for couplers will apply.
- Shades exceeding a 3-to-1 ratio may have problems tracking. In other words, shades with a height dimension that is more than 3 times the width measurement may be susceptible to telescoping.
